

# HT-02 Adjustable Hedge Trimmer Scabbard

## Installation Instructions

Thank you for purchasing this GRIDIRON product

The GRIDIRON Adjustable Hedge Trimmer Scabbard can be used to store one hand-held power hedge trimmer. It can be mounted to GRIDIRON posts, or directly to the side of your truck or trailer.

### Assembly and Installation

1. **Fastener Assembly-** The fasteners are assembled at the factory but can loosen during shipping. Assemble any loose bolts and T-nuts only as shown at right. (NOTE : INCORRECT ASSEMBLY WILL RESULT IN DAMAGE ! )

2. **Post Mounting-** Slide the T-nuts into the slots of the Gridiron post. Adjust the position and the width of the scabbard to fit your hedge trimmer. When it is in the desired position, tighten the two flat head screws.

3. **Wall Mounting-** Locate a wall stud and drill two 1/8" diameter holes at 11.75" center distance. Use two #14 sheet metal screws with flat washers to fix the assembly to the wall, making sure that the bracket with the hole is on top of the bracket with the slot. Adjust the width of the scabbard to fit your hedge trimmer and tighten the screws to hold in place.

**Operation :** Slide the blade of your hedge trimmer into the scabbard until the trimmer head rests on the scabbard. The two halves of the scabbard should hold your hedge trimmer snugly. If the fit is too tight, or if there is excessive play, loosen the two mounting screws and re-adjust the width.

**Parts**

Part #	Description	Qty
103062	Scabbard Bracket w slot	2
103063	Scabbard Bracket w hole	2
103064	Scabbard Half	2
