

Open Hand Tool Holder Installation Instructions

Thank you for purchasing this Gridiron product

- 1 Fastening hardware is assembled at the factory but can loosen during shipping. Assemble any loose bolts, washers, and T-nuts as shown below (NOTE- INCORRECT ASSEMBLY WILL RESULT IN DAMAGE.)
- 2 2 Posts are required and must be between 43" and 29-1/2" apart on center.
- 3 Slide the hand tool holder brackets down the posts from the top and snug the bolts just enough to hold the brackets in place.
- 4 Adjust the brackets so that your hand tools rest on the deck of the trailer and the upper bracket is high enough to keep them from leaning excessively or bouncing out.
- 5 When all brackets and other accessories are in place, and you have decided where to place each bracket, finish tightening the brackets.

WARNING!

Assemble all T-nuts with pilot to inside of post.

Package Contents
